[i] Census 2011

[ii] Not available. To maintain confidentiality due to the small numbers involved.

[iii] Data for the 5 year period from 2008/09-2012/13, Source – Scottish Neighbourhood Statistics - <http://www.sns.gov.uk>

[iv] The “Training” destination shown in the table above refers to destinations where there is no employer or no formal education establishment (For example a government training scheme). As these opportunities occur less frequently away from the large centres of population the uptake in Moray is small.

[v] https://isds.scotland.scot.nhs.uk/Health-Topics/General-Practice/Publications/2014-09-30/QOF_Scot_201314_Practice_prevalencev2.xls

[vi] Source – Scottish Neighbourhood Statistics - <http://www.sns.gov.uk>. Data highlighted in red italics represents averaged values from one or more datazones.

[vii] “-” represents where no anti-social behaviour has been recorded.

[viii] Where there are more than one Datazones/Output areas in each of the six areas the figures are averaged. Averaged figures are highlighted in Red Italics. SIMD rankings for areas with multiple zones are purely averaged values and as such do not show the diversity between zones which in some cases range from 1 to 5.

[ix] The SIMD divides Scotland into 6,505 small areas, called datazones, each containing around 350 households. The Index provides a relative ranking for each datazone. In quintiles, the rankings are 1 (most deprived) to 5 (least deprived).
