*Environmental Issues include Dog Fouling, Littering, Fly Tipping and Graffiti.

**Any Community Council not shown above has a nil return for the month

Abandoned Vehicles have accounted for 41% of our work in November. Many vehicles that are reported to us are nuisance vehicles as opposed to abandoned in terms of the legislation within which we work. However, to determine that we still require to expend time that could be spent on other matters. Any vehicles that appear to be being used untaxed or without MOT are notified to Police Scotland.

1 Fixed Penalty for £80 was issued during November in respect of a litter offence in Elgin.

Some detailed information on littering and fly-tipping is broken down below

This top graph shows complaints received by month and the bottom graph by area. 29 reports in total. Much thanks must go to community groups who carry out litter picks within their areas.

Frosty Mornings

**The frost has arrived with snow no doubt not far behind.
Winter is well and truly here, but is your car ready?**

**Remember that when driving you must be able to see out
of your vehicle. Failing to clear your windscreen of ice
and snow may well end you up with a fine!**

Be Clear to Steer.

Scottish Fire and Rescue Service

Back in October 2017 the Scottish Fire and Rescue Service launched the Community Asset Register (CAR).

Essentially this is a register of volunteers who have a particular asset or skill which they feel could be used to support emergency services and responders at an incident.

Examples include someone with a boat who could be called in times of flooding to assist evacuate people from houses to a place of safety. Similarly someone with a 4X4 may be used in times of severe snow to transport vulnerable people to a community hall.

Further information about the CAR can be found on the link below:

[http://www.firescotland.gov.uk/news-campaigns/news/2017/10/sfrs-launches-community-asset-register-\(1\).aspx](http://www.firescotland.gov.uk/news-campaigns/news/2017/10/sfrs-launches-community-asset-register-(1).aspx)

Unfortunately, it is impossible to gauge how often a volunteer will be requested.

Mobilisations can be determined by severe weather, a specific type of asset/skill required for the incident, the emergency services availability and resources in the area and the location of the volunteer.

It must be stressed that even when someone has registered, they are under no obligation to mobilise when they are called by the Operations Control centre.

For anyone to register an interest and request a form they would be required to email:

SFRS.CommunityAssetRegister@firescotland.gov.uk and a registration form will be sent to be completed along with guidelines on how to complete the registration process.
